matter CBT/BT or BCBA

Jigsaw Junction Providing ABA via Tele Intervention, Planned circle times

MeBe- Providing ABA in the Home and via Tele Intervention

Sandbox Providing Mental Health therapy via Tele Intervention;
have done some ASD assessments via Tele (mostly over 5yrs)

Sum of Learning Providing ABA in Home and via Tele Intervention

Some similarities:

-All have seen a sharp decrease of families continuing with ABA therapy

-If Staff are going to homes these agencies have a health protocol for the staff and check in on the health of the family before going to a home visit.

- Most of these agencies report that they are not seeing consistent attention for children 3 and under in using Tele Intervention for ABA therapy

- All staff wear masks or face shields depending on the child. Using gloves for food handling and toileting.

-Limiting in center to no more than 3-5 people total. NW ABA 2 Techs/2 Kiddos 3-sessions/day.
Connections-Limit home visits 2 visits per staff per day

-All of them are taking new referrals
