**Q6**

What should voters know about your commitment to keeping everyone, including students with disabilities, safe in school?

I believe in providing a safe space for all students and staff in every school. The reason I chose "Not sure" for my response is due to experiences relayed to me from classroom teachers in our district. I do not wish for any student to be restrained at any time, but I also understand the extreme difficulty in handling a violent student in the moment. My goal is to make these types of options unnecessary by providing an appropriate amount of trained professionals who can handle a situation that currently might require these types of options due to the lack of trained staff. If our state legislators will commit to providing funding at appropriate levels to end these practices, I fully support the changes required in our schools to make that happen.
