

## Residential Assessment

The Residential Assessment provides us with an overview of your family member's lifestyle preferences, desired living environment, favorite social activities, support needs, benefits and services, and other resources. It also provides us with an overview of your family's housing vision.

The assessment is used to identify gaps in your family member's benefits and services and is the first step to joining our Roommate Matching Pool.

\$300 fee includes:

- A review of services to ensure that your family member has all the services they are entitled to
- A follow-up phone consultation to identify steps you can take now to prepare for future housing
- Assistance navigating services
- A printable report to use for planning purposes
- Access to our Roommate Matching Pool (by invitation only).

**\$50 discount for attendees of King County's  
Housing Now! Conference through March 31, 2018.**
