

Klondike the Therapy Dog

By Debbie Skow

Should anyone wish to have a therapy dog attend future events, it would be best to contact Therapy Dogs International (TDI) directly. TDI then sends the request info to TDI teams in the area.

If a team is to visit a facility not currently on TDI's list, the team has to arrange for a TDI Memorandum of Understanding (MOU) to be signed by that facility and TDI before visiting. I had to do this for Highline College. Sharing this because a week or two might be needed to accomplish signing the MOU. The MOU also covers insurance.
