

# Seattle Developmental Bridge Program

**Questions about your child's development? We're here to bridge the gap.**

The Bridge Program provides individualized services and developmental support for Seattle children ages birth – 48 months, including:

- Family service coordination and Developmental screenings
- Physical, Occupational, and Speech-Language Therapy
- Individualized Early Education
- Resources and connection to next program
- Interpreter services are available at no cost

Services are customized and flexible to meet the needs of the entire family. They last up to 6 months and conclude with the connection to the child's next program. Providers include:

## Could Bridge be a fit for your family?

- Do you have a child between the ages of birth - 48 months?
- Does your family reside within the City of Seattle?
- Do you have questions about your child's development, growth & learning?
- Do you need continued support after ending ESIT/Early Supports?
- Is your child facing a gap between programs and in need of immediate support?
